

Project Update

Vineyard Springs Basin at Laguna Creek (Southgate Soccer Basin) Project

August 2021

ISSUE 2

About this Newsletter

This newsletter provides current information about the Vineyard Springs Basin at Laguna Creek (Southgate Soccer Basin) Project. For your reference, a project exhibit is printed on the back of this newsletter. If you have questions, please contact the project staff listed below.

Background

This Project is a component of the Vineyard Springs Comprehensive Plan (VSCP) Drainage Master Plan (DMP). The Project is located on vacant land west of Wildhawk West Drive, south of Larry Gury Community Park, and north of Laguna Creek in the Vineyard Spring community of unincorporated Sacramento County.

During large storm events, water spills out of Laguna Creek and travels north across the land to Gerber Creek in a floodplain that is known as the inter-basin transfer.

The proposed detention basin will temporarily store community stormwater runoff until it can be conveyed to Laguna Creek. Most of the time, the basin will be dry and available for use as soccer and play fields. Upon completion of the Project, Southgate Recreation & Park District (SRPD) will construct and maintain the soccer and play fields, irrigated turf, landscaping, trail lighting, and associated amenities.

Project Description

The Project will construct a 15-acre multi-use detention basin requiring the excavation of approximately 117,000 cubic yards of soil. A total of 72,000 cubic yards of soil will need to be off hauled from the Project site. It is important to note that the off haul will involve the use of many dump trucks traveling on Carmencita Avenue and Wingspan Drive throughout the day for a few weeks.

The Project will also install an armored concrete weir, culverts, paved multi-use trail, fencing, and internal

basin/field/trail utility infrastructure. SRPD will install the soccer/play field landscaping, and associated public use facilities/amenities, within the basin and around the trail as a part of a separate project in the near future.

Project Updates

The Board of Directors approved the Project for advertisement to construction contractors on April 6, 2021. The public bid opening was on May 13, 2021. There were seven bids submitted. On July 13, 2021, the contract was awarded to the lowest responsive, responsible bidder – DeSilva Gates Construction LP.

Project Schedule

- Construction Start – September 2021
- Construction End – March 2022

All dates are tentative and subject to change
