

Information Available at Drainage Development Front Counter

1. Flood zone determinations:
 - a) If the property is in an SFHA, community number, panel number & suffix, date of FIRM index, FIRM Zone, BFE, elevation datum used (if different than NGVD), and/or any "otherwise protected area" as designated on the FIRM
 - b) If you are asking for flood zone information because you are planning to build, you will be advised of the County's minimum floor requirement and/or any other information that might be relevant to your project with respect to floodplain management
2. Mandatory flood hazard insurance requirements/notifications, when applicable
3. Information about purchasing flood insurance for properties not in the SFHA
4. Base flood elevations
5. Copies of Elevation Certificates that are kept on file
6. Our community FIRM (current & historical) is available for viewing
7. Identification of parcels subject to local flood hazards, local flood hazard maps
8. Handouts for Construction Complaint Guide and 'WYSK Before Hiring a Contractor' are available
9. Copies of our Local Hazard Mitigation Plan and Floodplain Management Ordinance are available free of charge
